WORK EXPERIENCE

Fullstack Developer — 2024 — Present

Mobility Management • Digital Insurance & Protection Solutions

Delivering end-to-end digital solutions for mobile protection and screen insurance, architecting custom internal software systems, dealer portals, and transactional reporting tools.

MobileCare Platform

- Engineered core sales and customer lifecycle management
- systems. Automated invoice generation and high-volume PDF/Excel
- exports. Built staff HR workflows,Finance, Sales, role hierarchies,
- and permission controls. Led server provisioning, regular backups, and infrastructure maintenance.

X Screen Insurance Platform

- Constructed full screen insurance claim tracking and approval workflows.
- Engineered real-time inventory management and dealer stock allocation.
- Built dealer management portals and audit-ready financial reporting pipelines.
- Delivered end-to-end automated operational tools for claims processing.

Vehicle Marketplace Platform

- Architected and developed a full-scale vehicle marketplace across Web, iOS, and Android featuring advanced faceted search, multi-image listing pipelines, and centralized admin moderation tools.
